AFFAIRS IN ALEXANDRIA

Citizens Enthusiastically Indorsed the Proposed Sesqui-Centennial.

Meeting Held at Opera House Presided Over by Mayor Simpson-General News.

A substantial basis was given to the pro-

posed sesqui-centennial celebration of Alex-

andria, in connection with the building of monument to General George Washing

ton, when the citizens gathered in mass

meeting in the Opera House last evening

and unanimously indersed the project. At

8 o'clock the building was well filled, and

shortly thereafter the speakers and other

guests began to assemble on the platform.

Among those who appeared there were

Messrs. George L. Simpson, mayor of the

city; M. B. Harlow, K. Kemper, E. E.

Downham, Rev. J. E. Thacker, Frank E. Anderson, Conrad Syme, Marshall King, Alexander Wedderburn, J. M. Hill, Fred-erick Paff, Carence Leadbeater, Joseph L.

V. H. May.

Mr. Harlow called the meeting to order

stating that the committee had selected Mayor Simpson to preside and Mr. Hubert

Snowden to act as secretary. He then introduced the mayor in an appropriate speech. Mayor Simpson responded, thanking the committee for the honor and refer-

ring to the large attendance. The meeting he said, had been called to devise ways and

means by which the most commendable plan proposed could be accomplished, and he hoped the celebration would be thor-

oughly consistent with the great epoch in

oughly consistent with the great cpoch in the city's history which it was to commemorate. He thought the affair should be postponed until the fall, when the weather would be more auspicious. "Whenever undertaken," said Mr. Simpson, "the matter will be a great success, for the city, when the interest of her citizens is aroused, rarely ever makes a failure."

Mayor Simpson's speech called forth much applause.

it was a most fitting place for the proposed monument. Mr. Kemper thought it should be a Masonic tribute—a granite shaft surmounted by a bronze figure of the general in Masonic regalia. He believed the Masons would give the matter their support.

Mr. George R. Hill arose and made a

short address preliminary to offering other

resolutions. Mr. Hill said the project would

succeed, but that it would require money.

Some few \$500 subscriptions, the speaker stated, would be needed. He then present-

Rabid Dog Killed.

There was a mad dog scare last evening about 7:30 o'clock at 33d and N streets, a small fox terrier being suspected of having rabies. Some person shot at the animal from a window, and a chase began. The dog was driven up an alley on N street. between 33d and 34th streets, and Policeman Charles Birkigt, attracted by the commetion reached the scene, and put the dog out of misery by shooting it. The animal was snapping convulsively and bleeding at the side, the shot fired first evidently having taken effect.

ANGLERS DISAPPOINTED, Muddy Water Interfers With Bass

Fishing. The muddy condition of the water in the upper Potomac has proved a serious setback to bass fishermen who had hoped to enjoy the sport soon after the season opened. Had the water been clear scores of anglers would have wet their lines the first of the week.

The only good fishing during recent days has been down the river, where clear water was found in some of the creeks. At Four-Mile Run the water has been in good condition for several days, and in addition to some big catches of white perch, a number of bass have been landed. Some good catches in the vicinity of Quantico are also

CONCERNING APPENDICITIS. The Knife and Oil Treatment.

. Y. Cor. Phila. Press. At the secent meeting of the members of the medical profession important papers were read that seemed to speak with disfavor of the extensive use of the knife in the case of appendicitis. It so happens that Dr. M. O. knife for appendicitis. Dr. R. T. Dr. Terry had treated by the on method. Dr. Terry has replied, giving the record not only of ten, but of twenty patients recently treated by him without the knife.
